W.N. McMurry Wins Three Behlen Awards

COLUMBUS, NEBRASKA – Behlen Building Systems recently named the winners of their annual Building of the Year contest, and W.N. McMurry Construction Co. of **Casper, Wyoming** received honors for three of the projects they completed last year. W.N. McMurry also received recognition for achieving \$800,000 in sales with Behlen (a national metal building supplier) making them one of the company's top ten builders.

W.N. McMurry was awarded the winner of the factory/warehouse category for the Halliburton Sperry Facility building located in Evansville, Wyoming; winner of the office category for the Granite Peak Business Center building Casper, Wyoming; and outstanding performance of the automotive category for the Jack's Truck & Equipment building in Rock Springs, Wyoming.

John Gintz, District Sales Manager with Behlen Building Systems stated, "WN McMurry has consistently been among our top ten producers year after year." Gintz added, "It's exciting to see W.N. McMurry being recognized for their professionalism and attention to detail with these three awards."

In addition to these awards, Rick Nelson, Secretary/Treasurer of W.N. McMurry Construction, was appointed as a new member of the Behlen Builder Advisory Council (BBAC). The council is made up of 8-10 members selected to serve as representatives for more than 250 builders located across the country.

WN McMurry Construction has been an authorized Behlen builder since 2003.
