To Whom It May Concern:

CBW Investments would like to take this opportunity to thank WN McMURRY CONSTRUCTION CO. for the outstanding service that you have provided us during the course of three major construction projects that now have been completed, and to offer this letter of recommendation to anyone who may be considering your services in the future.

In 2003, CBW INVESTMENTS entered into an agreement with WN McMURRY CONSTRUCTION CO. to build (2) new car dealerships on twelve acres of ground in the McMurry Business Park. The project was completed, on time, in mid 2004. We currently have two beautiful dealerships, one representing Chrysler franchises and the other representing General Motors. The properties consist of 38,000 sq ft buildings with a 10,000 sq ft body shop situated between the two dealerships. We were extremely proud to hear that WN McMURRY was recognized by "Behlen Building Systems" with the award of "Best Buildings of the Year 2004" for their work on our two dealerships. This is a testament to the dynamic architectural detail prior to construction and the construction team that carried out the plans.

We were so satisfied with WN McMURRY'S efforts on the dealerships that we engaged them again to build a new RV Center on six acres of adjoining land to the east of the existing structures. We entered into this agreement in December, 2007 and today have a

beautiful new 25,000 sq ft RV store up and running, again completed in a timely manner. We are certain that WN McMURRY will receive yet another "building of the year" award for their efforts.

All of these projects were done on time and within budget. We would invite any inquires as to the integrity of the WN McMURRY CONSTRUCTION CO. and highly recommend them to anyone considering a commercial construction project.

Sincerely

CBW INVESTMENTS
