Rich Fairservis, W.N. McMurry Construction
P.O. Box 50710
Casper, Wy 82605

Dear Rich:

On behalf of the Child Development Center (CDC) I would like to say thank you to W.N. McMurry Construction for our new building. In May of 2007, a groundbreaking ceremony was held at CDC as a kick-off for what was to become a brand new 25,000 square foot "state-of-the-art" addition to the existing building. Sixteen months later as the 2008 school year began, the new building was completed and the remodel of the existing building was complete and celebrated with a ribbon cutting ceremony.

From its humble beginning in 1967 when a handful of volunteers provided assistance to a few children in need, CDC has evolved into a multi-faceted, non-profit organization that employs over eighty professionals. CDC provides an array of child and family services including free developmental screenings, occupational, physical and speech therapy in addition to preschool and family service coordination. All services are free and developmentally appropriate for children birth through age five.

From the initial planning stages in 2005 to the first day of school this year, W.N. McMurry has been an outstanding group of professionals to work with. Keeping the needs of the children and families served by CDC in mind, and respecting the uniqueness of the program, W.N. McMurry and CDC were able to work together toward a common goal of designing and constructing a phenomenal facility. **The communication between CDC staff and the construction team leaders was constant and positive. The timelines were maintained, and the budget was followed. The quality of craftsmanship is nothing short of fantastic and is loved by staff, families, children, and visitors.**

This community is truly blessed by the willingness of its members to stand up and publicly support the organizations that are making a difference. The Child Development Center, affectionately referred to as "the Miracle on 12th Street" by many, is one of those organizations that is surrounded by support. With the help of One-Cent monies, private contributions, and the invaluable generosity of W.N. McMurry, CDC continues to grow and meet the needs of over 400 children this year alone.

On behalf of the Child Development Center Board of Directors, staff, and families who receive services, I would like to thank W.N. McMurry Construction for making this mission a reality: "The Child Development Center exists to provide premier, family-focused, developmentally appropriate services for children birth through age five".

Sincerely,

John Starnes
Executive Director
