W.N. McMurry Construction Co.
1300 Venture Way
Casper, WY 82609

To Whom It May Concern:

Rocky Mountain Wash, LLC, is a Wyoming based company that is in the business of owning and operating automatic and self-serve carwash facilities. Rocky Mountain Wash, LLC opened the first location in 2001 and have since been growing throughout the State Wyoming.

Upon entering the Casper market Rich Fairservis, President of W.N. McMurry Construction Co., was contacted to undergo the construction of the new location. Once plans and permits were in place, W.N. McMurry Construction Co. went to work.

From inception to the final completion, the entire staff from the job superintendant to the office personnel, are unparalleled in quality and unsurpassed in execution. They were pleasant, responsive and competent. Throughout the project, they were conscious of pricing, construction schedule, as well as accommodating last minute updates and changes.

Rocky Mountain Wash, LLC is excited to have W.N. McMurry Construction Co. and Rich Fairservis on our team to continue our growth with our next project in Casper as well as other parts of Wyoming. We are proud of our latest addition to our company and would highly recommend W.N. McMurry Construction Co. for any construction project of any size or magnitude!

Sincerely,

Mike Irwin
