Re: Reference letter for W.N. McMurry Construction

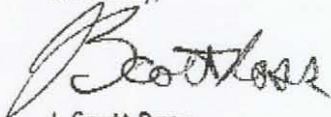

To Whom It May Concern;

It has been our experience on our completed projects with W. N. McMurry Construction that they have established themselves as a top tier General Contractor in our region for the following reasons.

- 1) The ability to provide and maintain a realistic schedule with a completion date that is in the owner's best interest.
- 2) Keeping a realistic budget from start to finish, including change orders and the unforeseen problems that occur on all projects.
- 3) Good housekeeping and maintaining a safe environment for all contractors on site.
- 4) Great team effort with all contractors involved to co-ordinate and problem solve in order to provide a finished project of the highest quality in reference to the appropriate bid documents.

As a subcontractor with many years experience, we prefer to work with contractors who provide these conditions, and understand that without them, the success of any project will suffer in terms of quality, budget and the length of time needed to complete. W. N. McMurry has provided this in the past and on current projects, and I am confident this will continue. We look forward to being part of this successful team effort, and hope to participate in further projects that contractor and owner alike will be proud of for years to come.

Sincerely,

J. Scott Ross

Project Manager
