## **W.N. McMurry Wins Behlen Building Awards**

**COLUMBUS, NEBRASKA** – Behlen Building Systems recently named the winners of their annual Building of the Year contest and W.N. McMurry Construction Co. of **Casper, Wyoming** received honors for two of the projects they completed last year. W.N. McMurry also received recognition for achieving \$600,000 in sales with Behlen (a national metal building supplier) making them one of the company’s top ten builders.

W.N. McMurry was awarded Outstanding Performance in the sports facilities category for the Fitness One building located in Casper, Wyoming; and Outstanding Performance in the factory/warehouse category for the Freight Facility building in Evansville, Wyoming.

John Gintz, District Sales Manager with Behlen Building Systems stated, “W.N. McMurry has consistently been among our top ten producers year after year.” Gintz added, “It’s exciting to see W.N. McMurry being recognized for their professionalism and attention to detail with these awards.”

WN McMurry Construction has been an authorized Behlen builder since 2003.

###

Behlen Mfg. Co. located in Columbus, Nebraska, is locally owned and was established in 1936. The company’s building division produces a wide variety of custom designed metal building systems designed for commercial, industrial, institutional, and warehouse buildings along with a complete metal roofing division. Behlen has maintained ISO 9001 Certification since 1999 and is the first metal building manufacturer in the United States to achieve IAS AC472 Accreditation.
