

HONDA *of* CASPER

...CHANCES ARE WE HAVE YOUR CAR TRUCK OR SUV

December 15, 2008

W.N. McMurry Construction Company
1300 Venture Way
Casper, WY 82609

To Whom It May Concern:

It is a distinct pleasure to recommend W.N. McMurry Construction Co. and its president, Rich Fairservis.

We started Honda Of Casper in 2003 in a small building and with the help of Rich and his team we are now in a 14,000 square foot, state of the art Honda dealership.

I have been involved in several other dealership building projects and this one was by far the best. I found the entire team to be professional and easy to work with. They had the project done on time, within the budget, and used their expertise to improve and modify the building as it was being completed. Through the help of McMurry Construction Co. we have become the model for American Honda's next generation of buildings.

I am proud to whole heartedly recommend McMurry Construction Company. Their performance was unsurpassed and they would be an asset to any project.

Sincerely,

Ken Walker
GM /Operating Partner
